PROFESSIONAL SUMMARY

Computer Science Engineering graduate from Chandigarh University with skills in full-stack web development and Data Structures & Algorithms. Proficient in React.js, JavaScript, HTML, CSS, backend development, and C++, with experience building responsive web applications and solving real-world problems. Seeking an entry-level Software Engineer role to develop scalable and user-focused applications. Strong understanding of software development principles, REST APIs, database management, and version control using Git. Passionate about continuous learning and leveraging technology to create efficient and impactful solutions.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Java, JavaScript for application development, problem-solving, and algorithm implementation.
- **Frontend Technologies:** HTML5, CSS3, React.js for creating responsive and modern web applications.
- **Backend Technologies:** Node.js, Express.js for developing scalable backend services and RESTful APIs.
- **Database:** SQL, MongoDB for database design, data management, and query optimization.
- **Core CS Concepts:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks with strong theoretical and practical understanding.
- **Tools:** Git, GitHub, VS Code, Netlify, Code::Blocks, MS Office for development, debugging, and project collaboration.
- **Soft Skills:** Problem Solving, Teamwork, Decision Making, Adaptability, Creative Thinking and effective communication abilities.

EDUCATIONAL QUALIFICATIONS

Chandigarh University <i>Bachelor of Computer Science and Engineering — CGPA: 8.01/10</i>	July 2022 – June 2026
Suraj Senior Secondary School, Mahendragarh (Haryana) <i>Intermediate (CBSE) — Percentage: 84.2</i>	April 2021 – March 2022
Saraswati Senior Secondary School, Narnaul (Haryana) <i>Matriculation (CBSE) — Percentage: 81.2</i>	April 2019 – March 2020

WORK EXPERIENCE

Online Summer Intern CODTECH IT SOLUTIONS PVT.LTD, HYDERABAD FRONTEND DEVELOPMENT	June 2025 – July 2025
• Developed and enhanced 4 real-world web applications, including a quiz app, chat application, portfolio website, and e-learning platform, delivering responsive user interfaces and optimized application performance. • Participated in Agile sprint meetings and debugging sessions to refine components, ensure cross-platform compatibility, and manage code collaboration using Git.	

PASSION PROJECTS

Real-Time Chat Application React.js, Node.js, Express.js, Socket.io GitHub	May 2025 - June 2025
• Improved a real-time chat application using React.js, Node.js, Express.js, and Socket.io, enabling instant messaging across connected clients. • Utilized a client-server architecture with user authentication and secure WebSocket based communication. • Developed a responsive user interface to ensure seamless and reliable real-time conversations.	
Furni-Sphere E-Commerce Website HTML, CSS, JavaScript, PHP, MySQL GitHub	July 2024 - Dec 2024
• Built a full-stack furniture e-commerce website with user authentication, product listings, shopping cart, and order flow. • Executed backend logic in PHP for session handling, product management, and cart operations. • Integrated frontend and backend for dynamic rendering and smooth navigation. • Created a responsive UI for consistent cross-device user experience.	
Weather Dashboard React.js, JavaScript, REST APIs GitHub	Jan 2025 - April 2025
• Enhanced a dynamic weather dashboard displaying real-time data and 5-day forecasts using public REST APIs. • Enforced city-based search with recent history and error handling. • Planned a responsive interface for seamless performance across multiple screen sizes.	
Portfolio Website React.js, JavaScript, HTML, CSS GitHub	Jan 2024 – April 2024
• Expanded a responsive personal portfolio website using React.js and Vite to showcase projects, skills, and achievements. • Applied modular UI components and optimized page load performance using reusable React components. • Deployed the application on Netlify, ensuring responsive design and compatibility across desktop and mobile devices.	
Smart Traffic Management System C++, DSA, Graph Algorithms GitHub	June 2025 - July 2025
• Generated and applied a graph-based traffic management system using C++ and Dijkstra's algorithm for shortest path optimization. • Simulated dynamic traffic conditions by adjusting edge weights to represent congestion. • Improved route recalculation efficiency using priority queues for faster optimal path selection.	

CODING PROFILE

LeetCode: Solved 100+ Data Structures & Algorithms (DSA) problems, demonstrating strong problem-solving and coding skills.

CERTIFICATIONS & ACADEMIC ACHIEVEMENTS

- **Foundation of Cloud IoT Edge ML- Gold Certificate (NPTEL):** Concepts of cloud computing, IoT, and edge machine learning.
- **Cloud Computing – Silver Certificate (NPTEL):** Cloud architecture, virtualization, deployment models, and cloud services.
- **Multi-Core Computer Architecture – Elite Certificate (NPTEL):** Processor design, parallel computing, and multicore system concepts.
- **Computer Fundamentals with MS Office:** Acquired skills in computer operations, documentation, spreadsheets, presentations, and productivity tools.
- **AWS Cloud Computing (Chandigarh University):** Extended understanding of AWS services, cloud infrastructure, and deployment practices.
- **React Native (META): Coursera:** Cross-platform mobile application development using React Native.
- **Computer Networking (ILLINOIS TECH): Coursera:** Network protocols, communication models, and internet architecture.
- **Algorithmic Toolbox (UC San Diego): Coursera:** Algorithm design, optimization techniques, and computational problem solving.
- **Introduction to Generative AI: LinkedIn Learning:** Fundamentals of generative AI models and practical applications.

INTERESTS & HOBBIES

- **Reading | Listening | Music:** Exploring technology, software engineering concepts, and personal development resources.
- **Coding Challenges:** Practicing DSA, competitive programming, and logical problem-solving techniques.
- **Web Development:** Developing full-stack web applications using modern frameworks and development tools.
